

The Colorado SCR

Intelligent boost electric towel radiators

Warm, dry towels all year round are a luxury provided by the high output Colorado SCR towel rail. With 450w or 750w versions available, they are amongst the most powerful on the market, sufficient to heat the bathroom as well as dry towels.

The body of the radiator is produced from high grade steel, with a white powder coat finish and filled with a specially designed heat transfer fluid, which not only heats quickly but helps preserve the long life element and stops internal corrosion.

An easy to use dial sets the required room temperature which is regulated by an accurate, energy saving digital thermostat. A useful 2-hour boost is available at the press of a button and can be set to repeat each day or twice a day. The Colorado SCR is compatible with a fused spur programmer if full 24/7 programming is required.

Features

- Precise digital thermostat accurate to 0.2°C
- External temperature sensor
- Easy to use dial temperature setting
- Single 2-hour boost facility
- Daily 2-hour boost facility
- Twice daily 2-hour boost facility
- High quality fully welded steel construction
- Filled with corrosion inhibiting heat transfer fluid
- Finished in white polyester powder-coat
- Curved rails for easy towel hanging
- High heat output for warm room and dry towels
- IP44 rated for use in bathrooms
- Pilot wire present for whole house heating system
- Strong adjustable wall brackets
- Maintenance free and long life
- Overheat safety cut out switch

Code	Wattage	Size in mm W x H x D	Colour	IP Rating	Voltage	Insulation	Weight kg
SCR 450w		500 x 1020 x 70	RAL 9016	IP44	230v/50Hz	Class 2	10.5
SCR 750w		500 x 1400 x 70	RAL 9016	IP44	230v/50Hz	Class 2	13
